BAI seniors are highly recommended, by the Department of Interpretation and Translation, that they do not take another course to be added to their course load that contains the courses INT 492 and INT 494 during their final spring semester in the BAI program. This is for providing BAI seniors a better interpreting internship schedule and an opportunity for obtaining an invaluable and rich academic and practical experience during their senior internships along with their completing other course requirements in the two BAI capstone courses INT 492 and INT 494.

Financial Assistance and Transfer Credits

With a transfer student's two years of undergraduate studies at Gallaudet University, the maximum number of transfer credits for requesting a financial assistance is 80 transfer credits. If the number of your transfer credits is above the maximum number, you can work with your major adviser to determine which transfer credits will be counted towards your Gallaudet graduation degree.
