

Graduate Course Evaluation Form Clinical Psychology Program

Course: PSY _____ Instructor _____ Semester/Year ____/____

The following questions ask for your learning experiences in this course and your perceptions of the instructor. Please add examples, explanations, elaborations, or comments where appropriate, or on a separate page. Your instructor may provide special instructions for item # 14. If a question is not applicable to this course, please write N/A next to the question.

Do not put your name on this evaluation form. All ratings for a particular course will be tabulated into a summary report, and your written comments will be typed on that summary. The original forms, which do not include your name, will be seen by the departmental secretary and the department chair. The typed course evaluation summaries will be shared with the instructor and the clinical program director, and are used by the department chair as part of the evaluation of faculty members. We solicit your honest, constructive, professional feedback. If you have comments or suggestions about a course that you do not want included in this formal evaluation process, please share them individually with the instructor or the program director.

All questions in Part I are to be answered by checking one box, and adding comments as you see fit. Questions in Part II call for open-ended comments.
