

OneDrive @ Gallaudet University - OneDrive software setup instruction

Use your Gallaudet email address and click on "Sign-in" button

Click on "Work or school" button.

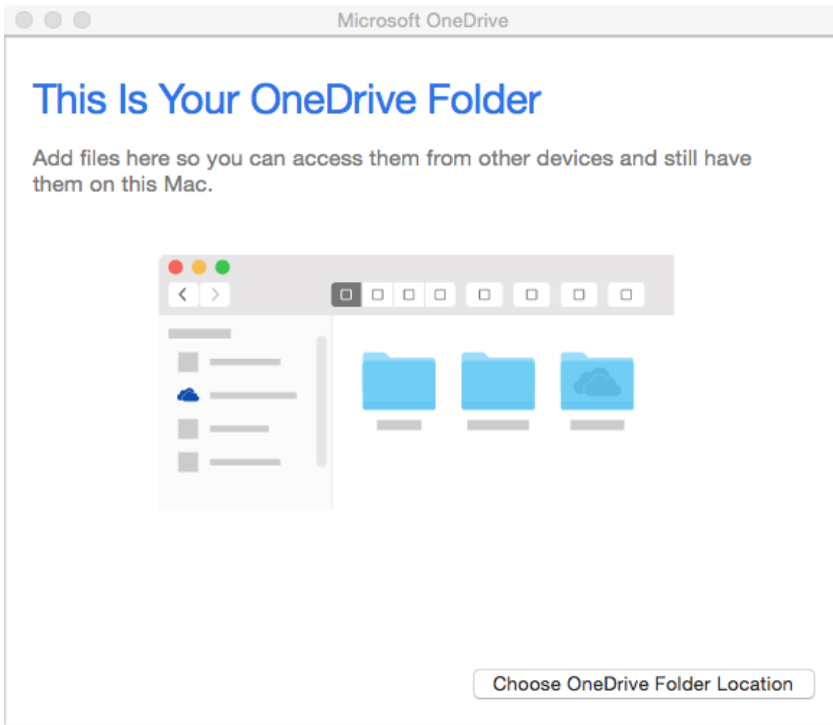

This automatically recognize you as member of Gallaudet University or Clerc Center.

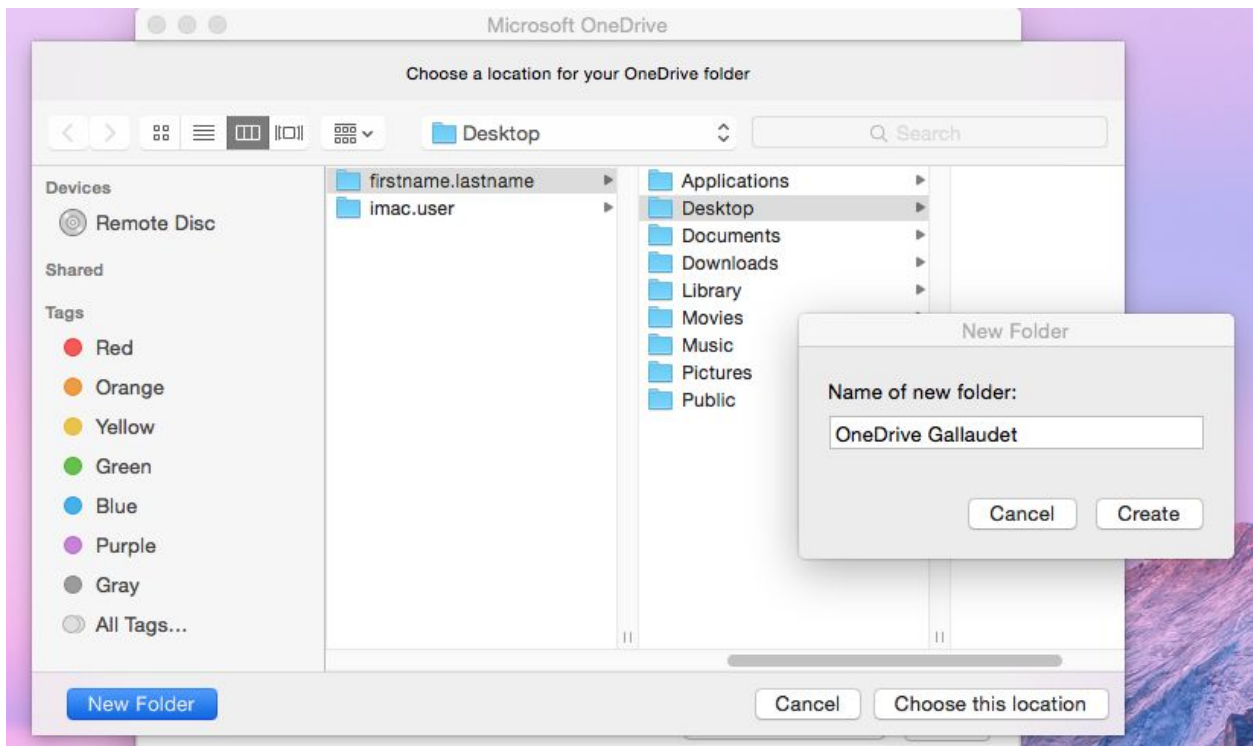

Use same Gallaudet password.

NOTE: This has 16 characters limit on password. Either truncate at 16th character or change password with up to 16 characters.

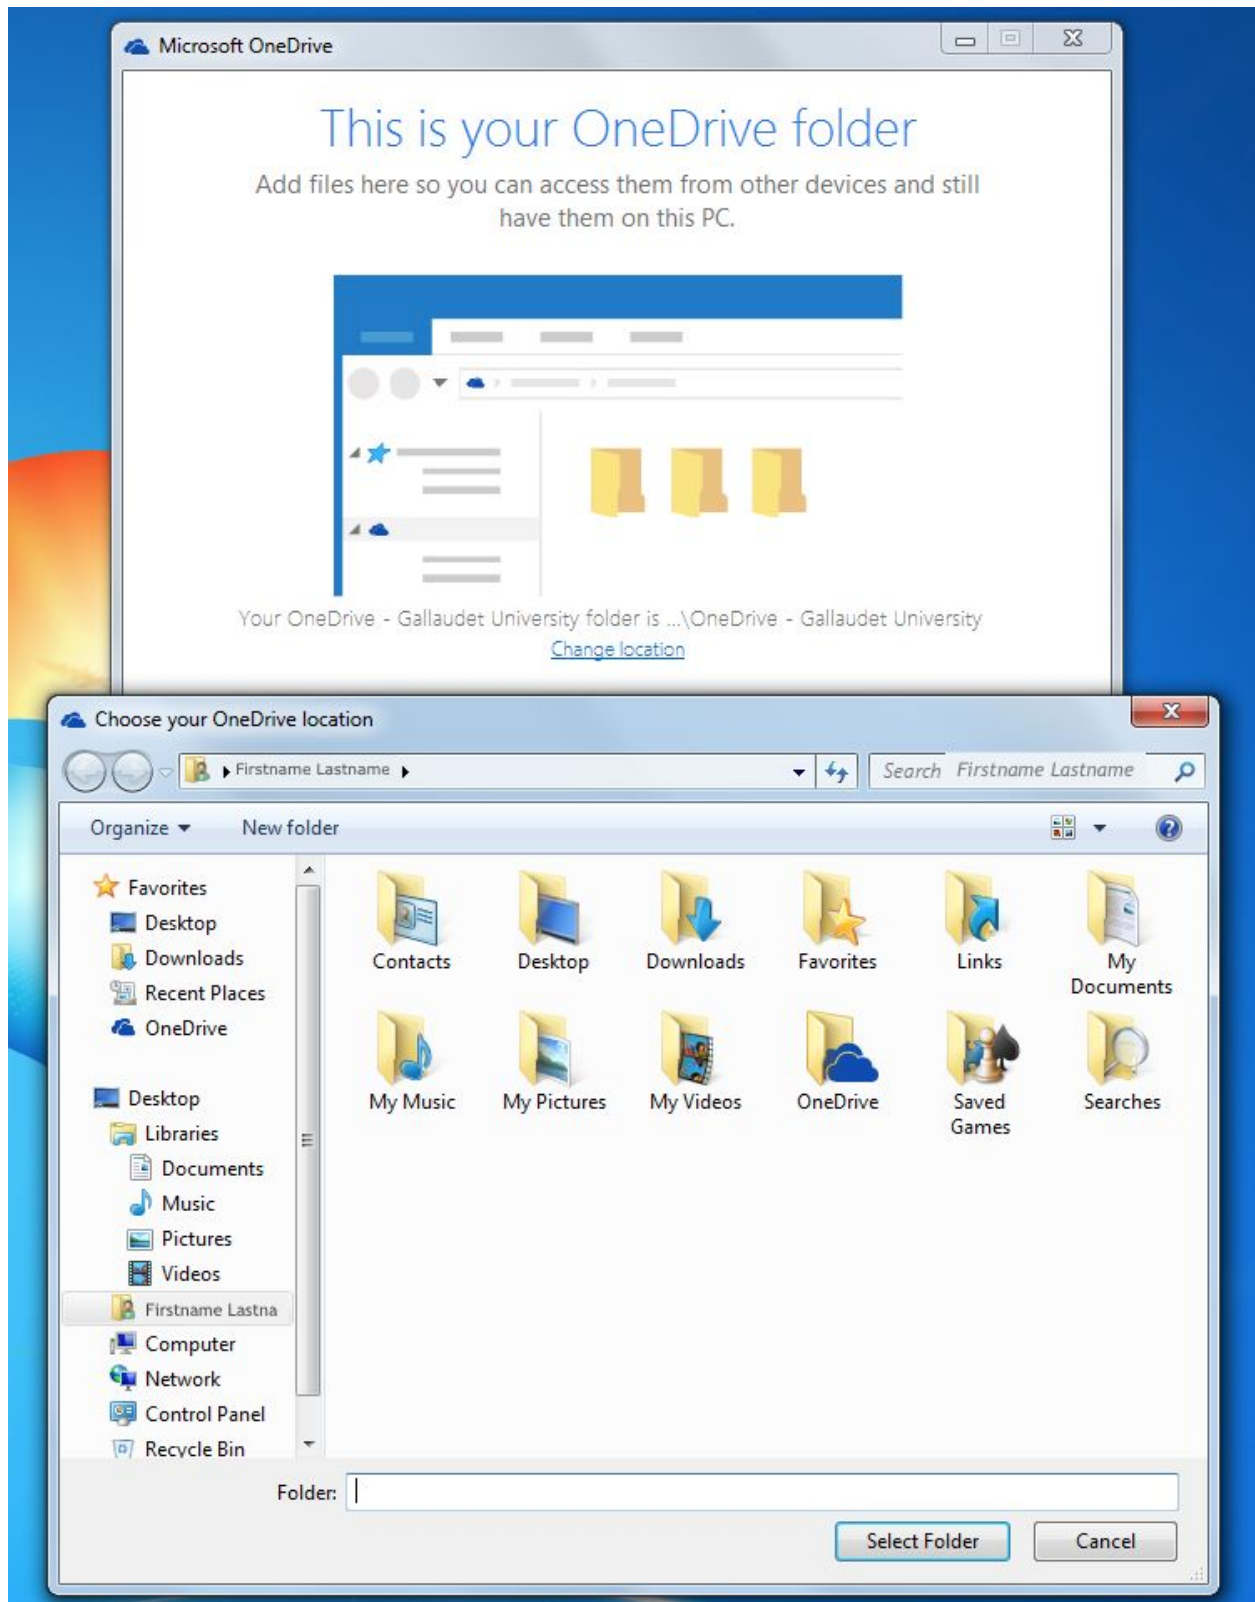

Mac Version:

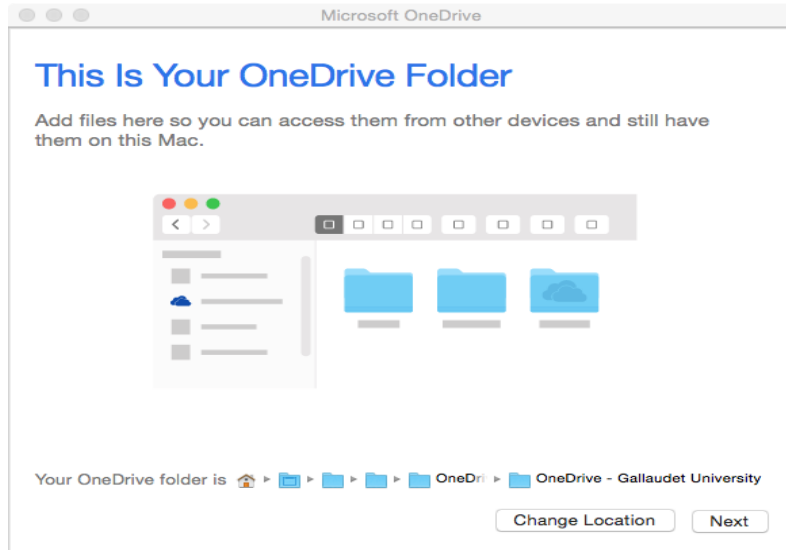

Click on "Choose OneDrive Folder Location" button to create a new folder or best existing folder for files synchronization.

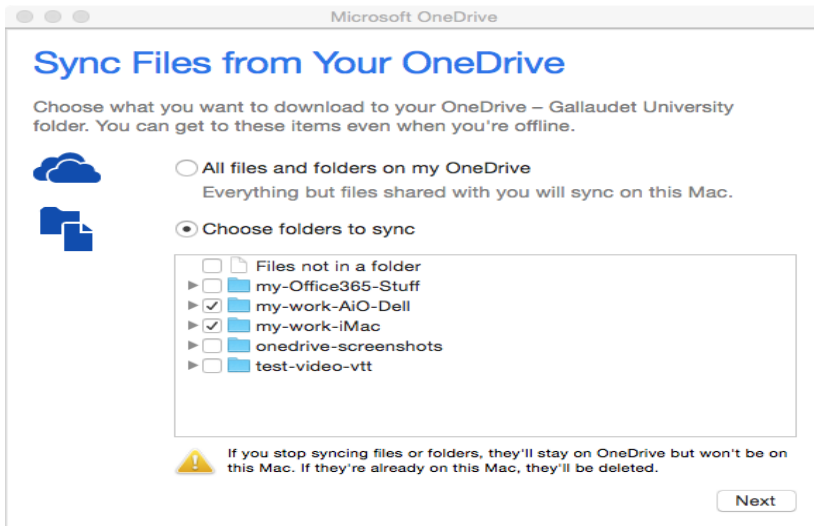

Windows version: Click on "Change Location" link

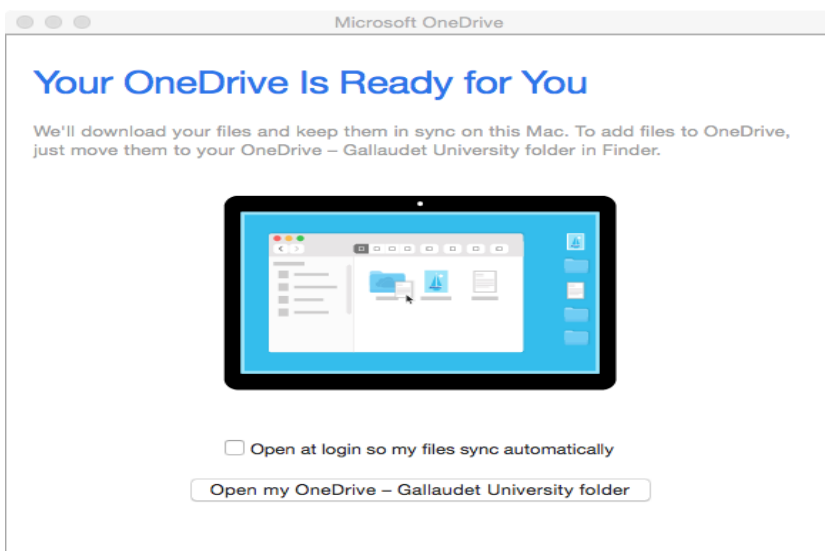

Verify that the preferred folder is the right place for files synchronization.

Choose items that you need to synchronize between cloud storage and local storage.

This confirm you that OneDrive is ready. This software immediately begins the files synchronization.

NOTE: If you have many files, it will be a while for both cloud and local storage to finish the synchronization process.
