① Graduation rate has been calculated based on a cohort of new to program master's level students only. The time period is 150% of the anticipated time to completion (3 years).
 ② Fall to fall retention is based on all graduate level students who were enrolled in fall and have persisted to the following fall, divided by those enrolled in fall minus those who have graduated. * all students from the previous fall graduated.
 ③ Assum data provided unless there were respondents to the survey. %
 Data source: Office of Institutional Research, Data Warehouse & Annual Survey of Recent Graduates (2016/17 Survey of 2014/15 graduates). %
