Haukur Vilhjalmsson AFS Student from Iceland

L-R: Robert Seremeth, Haukur Vilhjalmsson

It is a lot of fun being a host sister to Susan. We have been able to share many American experiences together. Susan has taught me many interesting things about South Africa. I hope that someday I can visit my sister in her home. I feel lucky to have Susan for a host sister and I will miss her when she goes home.

## Deanna Dunham

I become interested in participating in AFS program after I met an FS student from Chicago. She was in South Africa for one year. She as deaf parents, She visited my old school.

It is really fun to learn about a strange culture. By now I have alned great experience and it will be one of very unforgettable xperiences in my life.

I live in an MSSD dorm and also with a host family in Virginia. On nost weekends I go home to Virginia. My host family is really ronderful, and I am glad to have a marvelous host family. It will be ard for me when it is time to leave this country and my host family and go home to South Africa.

When I return to South Africa after a year here in the United ates, I would like to study computers.

Sugan Prior

I have always been very nervous about MSSD and my host family. I did not think about joining AFS before. I planned to go to Gallaudet College, so I wrote a letter to Gallaudet to get information.

But the AFS Chapter in Iceland said that they needed one deaf person to go to MSSD in Washington, D.C. I became very interested in going to America.

When I arrived in America on August, 1982, I met my host family. The members of my host family are all deaf. I couldn't understand what they said to me because their sign language is different from the one I used in Iceland. We used mostly gestures to communicate with each other. About one week before MSSD opened, I finally began to learn ASL from my host family.

MSSD has many sports. My old school in Iceland had no sports, but they have a gym just the same. I can't play sports at MSSD, because I am over the age limit for playing high school sports.

I live in a dorm on the MSSD campus. Almost every weekend, I go to my host family's home in Maryland.

I am very tired of the students' endless questions about the shoes from my home country that I use in MSSD. It always starts with my saying, "Yeah?" Then the person tells me that they look so different from common American shoes.

I am planning to go to Gallaudet in the fall of 1984. I think I want to be a mathematics teacher in a school for the deaf in Iceland.

Being a host brother is a very rich experience for me! Haukur and I have learned so much about customs, cultures, social life, etc. Since I have no brother and only one sister. However, the large is the state of t

have learned so much about customs, cultures, social life, etc. Since I have no brother and only one sister, Haukur is really like a real brother, not a host brother, because we share so many things together. He is so much fun and easy to get along with. I'm so glad that Haukur wanted to come home on most weekends, so we could have fun together. It's obvious that he enjoys being with my deaf family.

One of Haukur's aims is to attend Gallaudet College, and he will take the college exams. I do hope that he passes the exam, so that I can see him for five years or maybe more, and share more brotherly experience.

Time is fast approaching and I dread the day of July when Haukur goes back home to Iceland. It will be hard on me to lose a "brother," but I hope we will keep in close contact forever. Having Haukur here is one of the most memorable parts of my life. I encourage you to be a host brother/sister as you'll have a wonderful year! Gengur per vei (Good luck to you), Haukur.

Evidence of the first day's work on the yearbook last September.

I would like to extend my deepest appreciation to the people who have faithfully worked on the year-book. I also would like to give special thanks to my photographers — Mike Bates, Katie Nowlan, Karen Olson, Yvonne Mattiello, and Jay Grossman. Without their work, the yearbook would not have been possible. Thank you to the photography classes for letting us use their pictures for the MSSD 1983 yearbook. I also want to say a big THANK YOU to my advisors, Sandy Hyatt, Eric Malzkuhn, and Steve Barish. I would like to extend my sincere appreciation to my co-editor, Monique Holt, and her assistant, Kerry Manol. Their help has been very valuable to me and, I think that without them, I surely would not have known what to do. Special thanks to Fred Fanelli and Jeff Rosfelder for their artistic work on the yearbook cover.
